

COPPER COILS AND WIRE FORMS MADE BY **BAUMANN**

Advantages of BAUMANN copper coils

- Design and engineering of customer specific coils
- High precision ends forming (stripping isolation, edging and tinning)
- Leading know how in forming and coiling of copper coils

Application areas

- Circuit breakers (LV/MV)
- Electrical connectors

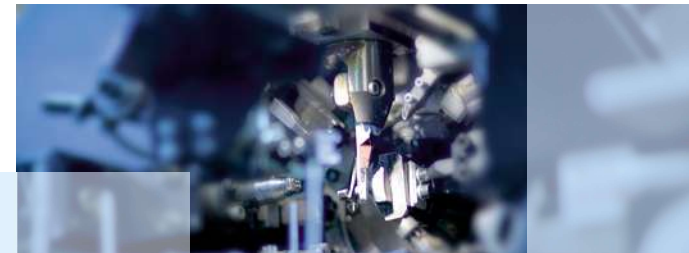

Materials

- Copper & alloys w or w/o enamel
- Silver

Manufacturing technology

- Multislid machines, special & CNC machines
- Dedicated tooling
- Rolling process on 2 and 4 sides
- Stripping, milling, coining, tinning and flattening process
